

Haseeb Ahmed

Nationality: Pakistani **Date of birth:** 02/12/2003

Phone number: (+92) 3185403013

Email address: haseebahmedpk97@gmail.com

LinkedIn: [haseebahmedpk97](https://www.linkedin.com/in/haseebahmedpk97)

Home: Wah Cantt (Pakistan)

ABOUT ME

Computer Science graduate with a research-driven interest in Artificial Intelligence, autonomous systems, and Artificial General Intelligence (AGI). Passionate about designing intelligent agents, AI automation, and machine learning solutions that solve complex real-world problems. Skilled in Python, LangChain, machine learning, computer vision, and full-stack application development, with experience building AI-powered systems ranging from multi-agent platforms to intelligent vision-based applications. Committed to advancing AI through graduate studies, interdisciplinary research, and international collaboration, with the long-term goal of contributing to the development of safe, scalable, and human-centered intelligent systems.

EDUCATION AND TRAINING

Bachelor of Computer Science

Comsats University Islamabad, Wah Campus | 3.42 CGPA [02/09/2022 – 09/06/2026]

City: Wah Cantt | Country: Pakistan | Level in EQF: EQF level 6

Intermediate (HSSC)

Cantt Public School & College, Lala Rukh | 80% [04/06/2020 – 28/04/2022]

City: Wah Cantt | Country: Pakistan | Level in EQF: EQF level 5

Matric (SSC)

Cantt Public School & College, Lala Rukh | 87% [03/03/2018 – 30/03/2020]

City: Wah Cantt | Country: Pakistan | Level in EQF: EQF level 4

WORK EXPERIENCE

Comsats Wah – Wah Cantt, Pakistan

AI Automation Intern

[02/08/2025 – 30/10/2025]

Designed and developed AI-powered business automation workflows using n8n and Zapier to automate lead generation, CRM processes, and client management. Integrated multiple APIs and no-code AI tools to streamline data entry, prospect qualification, follow-ups, and end-to-end business workflows, improving operational efficiency and reducing manual effort.

Capreg Soft – Wah Cantt, Pakistan

AI Development Intern

[02/05/2026 – 30/07/2026]

Designed and developed end-to-end AI automation solutions using LangChain and LangGraph, building agentic workflows capable of intelligent decision-making, multi-step task orchestration, and automated execution of complex business logic to improve operational efficiency.

Frontend Development Intern

[01/06/2024 – 31/08/2024]

Developed responsive websites and landing pages using HTML, CSS, JavaScript, and Bootstrap, translating design mockups into clean, user-friendly interfaces. Ensured cross-device compatibility through responsive design principles while collaborating with the development team to deliver modern, functional, and visually consistent web applications.

PROJECTS

[03/09/2025 – 10/03/2026]

DeepHunt AI (FYP) DeepHunt AI is a cloud-ready, multi-agent AI platform developed as a Final Year Project at COMSATS University Islamabad, Wah Campus (2022–2026). The system automates career opportunity discovery by autonomously scraping and aggregating jobs, internships, and scholarships from global sources using LangGraph-based agent pipelines. It features an LLM-powered personalization engine that matches opportunities to user profiles via semantic vector search and a reinforcement learning-based contextual bandit model. Additional features include skill gap detection, adaptive learning path recommendations, and a Smart Application Assistant that auto-generates tailored resumes and cover letters. Built with FastAPI, Next.js, PostgreSQL (pgvector), LangChain, and Docker.

[27/03/2025 – 10/04/2025]

4-Phase C++ Logic Compiler Developed a web-based four-phase C++ compiler using Python and Flask, implementing lexical analysis, syntax analysis, semantic analysis, and code generation. Integrated a browser-based interface to allow users to write and execute code in real time.

[05/11/2024 – 29/11/2024]

Smart Traffic Monitoring System Developed a real-time intelligent traffic monitoring system using computer vision techniques for vehicle detection. Implemented Non-Maximum Suppression (NMS) to improve detection accuracy and simulated adaptive traffic signal control using Pygame.

[10/04/2024 – 24/04/2024]

Facial Attendance System Built an AI-based facial attendance system capable of recognizing individuals in real time using computer vision and machine learning. Implemented SVM-based face classification with automated duplicate attendance prevention to improve accuracy and reliability.

[10/03/2023 – 24/03/2023]

Movie Recommendation System Developed a preference-based movie recommendation system with user authentication and subscription-based functionality. Implemented recommendation logic to personalize movie suggestions based on user preferences.

SKILLS

Python / C++ / JavaScript / SQL (MySQL, PostgreSQL) / HTML / CSS / Bootstrap / LangChain / LangGraph / Agentic AI / Prompt Engineering / OpenAI API / n8n / Zapier / Docker / Kubernetes / Git / Github / Linux / VS code / Jupyter

CERTIFICATIONS

[Plan D. Studios, 22/01/2025]

Internship Letter Internship completion letter confirming the role of Frontend Development Intern with focus on building responsive landing pages using HTML, CSS, Bootstrap and JavaScript.

[CodeWar, 06/12/2023]

Certificate of Appreciation Participated in the CodeWar Season II programming competition organized by HITEC University Taxila, demonstrating problem-solving, algorithmic thinking, logical reasoning, and programming skills by solving competitive coding challenges under time constraints.

LANGUAGE SKILLS

Mother tongue(s): Urdu

Other language(s):

English

LISTENING C1 **READING** C1 **WRITING** B2

SPOKEN PRODUCTION B2 **SPOKEN INTERACTION** B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

HOBBIES AND INTERESTS

Artificial General Intelligence (AGI) & AI Research Passionate about advancing intelligent systems capable of autonomous reasoning, learning, and solving complex real-world problems through research and innovation.

Open-Source Technology & Continuous Learning Enjoy exploring emerging technologies, contributing to practical projects, and continuously expanding knowledge through technical papers, documentation, and hands-on experimentation.

Chess & Strategic Problem Solving Enjoy strategic games that strengthen analytical thinking, long-term planning, logical reasoning, and decision-making under uncertainty.

RECOMMENDATIONS

Name: Dr. Saeed Ur Rehman | Tenured Associate Professor

Dr. Saeed Ur Rehman, Tenured Associate Professor at COMSATS University Islamabad (Wah Campus), recommends Haseeb Ahmed as a hardworking and enthusiastic individual with strong problem-solving and analytical capabilities, able to work both independently and in a team. He wholeheartedly recommends him for higher studies.

Email: srehman@ciitwah.edu.pk | **Phone number:** (+92) 3175611385
